

Night Show

Posted on 20. May 2025

This post is also available in:  [Deutsch \(German\)](#)  [English](#)  [Nederlands \(Dutch\)](#)

In recent years, we have offered you various turbine dragsters as a supporting program in the Night Show.

This year we will offer you something completely new, the Cash Days!

This gives you the opportunity to experience racing cars of a different kind and also a different variant of drag racing. We have already made a little tuning talk about this on YouTube:

What are the Cash Days?

Dragrace in street outlaw style on the **1/8 mile!**

Some of the best 32 drivers from Europe compete for the crown of the fastest Outlaw in Germany!

In contrast to drag racing, street outlaws used to be held very often as illegal street races. However, the scene has developed further and has moved away from the street and towards the race track. The main difference is that street outlaws are not about chasing trophies, but about competing for prize money and giving spectators the opportunity to bet among themselves on the winner of the race. The proximity to the drivers and the vehicles during the races creates a special flair.

Facts:

- 32 Drivers
- 10.000€ prize money (1.- 5k / 2.- 3k / 3.- 1k / 4.- 1k)
- 1/8 Meile im Outlaw-Stil (16 – 8 – 2 – 1)
- 2 glued and prepared tracks over the 1/8 mile
- no christmas tree
- Start with flashlight
- Pairings are determined by lot
- no timekeeping
- Start & finish video-monitored

- only the victory over the finish line is decisive

How do I take part as a Cash Days driver?

As a participant for the Cash Days, you must apply via the following link: <https://cash-day.de/bewerbung>

All 32 participants will be selected exclusively by the Cash Days crew after application! Not only the fastest/strongest car is decisive, but also how the drivers have delivered with their cars.

After you have been selected and the participation fee has been paid, a ticket for the Jade Race will be issued for the driver and one mechanic. Tickets for each additional person can be purchased via our [ticket store](#).

The special feature for Cash Days participants is that they can also take part in normal racing on Friday, Saturday and Sunday as part of the Test & Tune class to familiarize themselves with the track. Alternatively, participants can also register directly in one of the competition classes. This gives you the chance to pick up some points and trophies for the relevant championships.
