

## Night Show

Posted on May 20, 2025

This post is also available in:  [Deutsch \(German\)](#)  [English](#)  [Nederlands \(Dutch\)](#)

This year, we are entering the second round of Cash Day. Once again, several starters will be launched using the “old-school method” with a flashlight and will compete against each other without timing:

### What are the Cash Days?

Street-outlaw-style drag racing on the 1/8 mile!

Some of the best 32 drivers from Europe compete for the crown of Germany's fastest outlaw!

In contrast to drag racing, street outlaws used to be held very often as illegal street races. However, the scene has developed further and has moved away from the street and towards the race track. The main difference is that street outlaws are not about chasing trophies, but about competing for prize money and giving spectators the opportunity to bet among themselves on the winner of the race. The proximity to the drivers and the vehicles during the races creates a special flair.

#### Facts:

- 32 Drivers
- 10.000€ prize money (1.- 5k / 2.- 3k / 3.- 1k / 4.- 1k)
- 1/8 mile in outlaw style (16 - 8 - 2 - 1)
- 2 glued and prepared tracks over the 1/8 mile

- no christmas tree
- Start with flashlight
- Pairings are determined by lot
- no timekeeping
- Start & finish video-monitored
- only the victory over the finish line is decisive

## How do I take part as a Cash Days driver?

All 32 participants will be selected exclusively by the Cash Days crew after application! Not only the fastest/strongest car is decisive, but also how the drivers have delivered with their cars.

Once you have been selected and the participation fee has been paid, a ticket for the Jade Race will be issued for the driver and one mechanic. Tickets for any additional persons must be purchased through our [Ticketshop](#).

The special feature for Cash Days participants is that they can also take part in normal racing on Friday, Saturday, and Sunday as part of the Test & Tune class to familiarize themselves with the track. Alternatively, participants can also enter directly into one of the competition classes. This gives them the chance to win points, trophies, and prize money for the respective championships.
